

MIND Research Institute

Greater Los Angeles Area School Data 07/08-08/09 A neuroscience and education research-based non-profit corporation

The schools represented below are geographically spread across the Greater Los Angeles area -- each representing diverse student populations. Data shown reflects grade-wide usage of ST Math in each of the years highlighted. The California Standards Test (CST) is the standards-based assessment instrument reflected in each of the school profiles below which indicate the percent of proficient and advanced students.
