

# ST Math<sup>®</sup>

# TEACH MATH the Way the BRAIN Learns

ST Math is a PreK-8 visual instructional program that leverages the brain's innate spatial-temporal reasoning ability to solve mathematical problems. Its unique, patented approach provides students with equitable access to learning through grade-level content, challenging puzzles, non-routine problem solving, and formative feedback.

With ST Math, students build deep conceptual understanding, and schools see proven, repeatable results.

Higher Math Self Beliefs

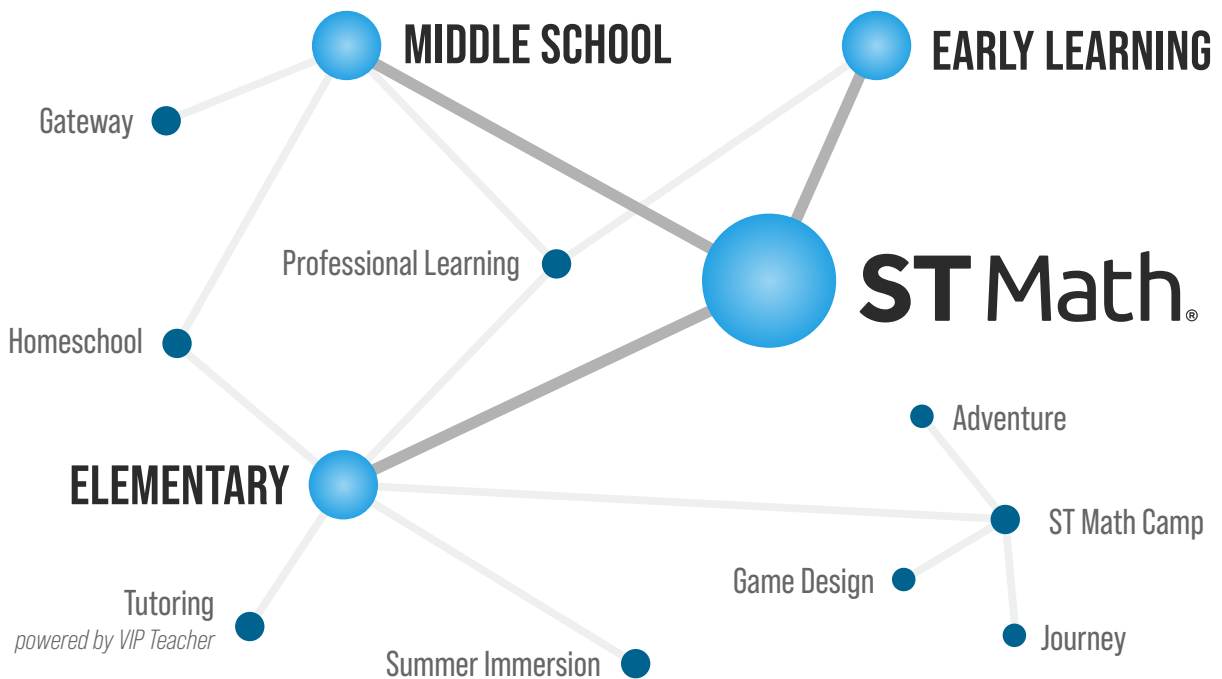

Equitable Access for Students

Increased Proficiency on Grade Level

## Accelerate Math Learning with ST Math's Programs

# ST Math®

## Available Programs

### ST Math. Early Learning

**PK-TK**

A comprehensive math curriculum that meets the developmental needs and learning needs of the youngest students

### ST Math. Elementary

**K-6**

A visual instructional program that is standards aligned and complements any core curriculum

### ST Math. Summer Immersion

**K-5**

A summer school curriculum that accelerates math learning during the summer months

### ST Math. Camp

**K-5 (Adventure and Journey) | 1-8 (Game Design)**

Three programs for use in after-school or summer school that build on student agency through design, games and discourse

### ST Math. Tutoring

Powered by **MIND Teacher**

**1-8**

A high-impact online math tutoring solution for school districts delivered by state-certified teachers

### ST Math. Middle School

**6-8**

A standards-aligned visual instructional program that includes personalized content and embedded diagnostic assessment

### ST Math. Gateway

**6-8**

A program organized around foundational number system concepts instead of grade levels to prepare students for success in middle school math

### ST Math. Professional Learning

**PK-8**

A collection of services including in-person and online workshops, webinars, and coaching to empower educators

### ST Math. Homeschool

**PK-8**

A standards-aligned curriculum for home use with facilitation resources for families

### ST Math. Assessment Support Tool

**2-8**

An add-on tool that auto-assigns intervention content to students based on their assessment scores
